

acousticaPro25

Premium sound control underlayment

Floorwise acoustica Pro25 is a high-performance acoustic underlayment purpose designed to help specifiers achieve compliance with Approved Document E when used as a fully-bonded soft floor covering with Floor Type 1 as defined in the Building Standards.

Quick and easy to install, the ultra-high density sponge rubber core provides excellent impact sound reduction characteristics as well as a stable and highly durable base on which to subsequently install flooring.

Being a **Floorwise** product, **acoustica Pro25** is backed by over 40 years' experience in supplying high quality flooring products to UK installers through our established network of expert distributors who can help advise the best solution for your project.

Technical Data

Thickness	2.5mm
Core density	960kg/m³
Core material	Sponge rubber
Facings	Non-woven polypropylene
Roll size	10m x 1m = 10m²
Roll weight	24kg
Thermal insulation	0.50 Tog
Impact sound reduction*	19db ΔLw
Impact insulation class*	ΔIIC 23

* SRL Technical Report 81829-SRL-RP-XF-001-P1

If required, **acoustica Pro25** can also be used as a conventional acoustic underlay where its low thermal resistance value of just **0.50 Tog** makes it ideal for use over most underfloor heating systems.
